Subject: SECONDMENT

Hi All,

There are currently opportunities for staff to apply for secondments throughout the Trust. It is therefore come at an opportune time for us and we were able to facilitate this for Lucy.

Lucy is currently seconded to the Risk & Patient Safety office for a period of 3 months.

Laura is currently seconded to the Haemodialysis unit and will be returning in November 2016.

Should anyone have an interest in other areas please discuss this further during your appraisal – or come to me directly.

Kindest regards

Eirian

Subject: Fw: CLINICAL SUPERVISION

Hi Everyone

In preparation for the external review it has been decided that all members of staff need to undertake a period of clinical supervision. Due to our staffing issues it has been difficult to determine how we undertake this process. We can only support one member of staff at a time, therefore we have decided that it would be useful to commence with staff who have been involved in many of the acute events, facilitating a supportive role to each individual.

Therefore Lucy has agreed to undergo this supervision first commencing on Monday 18th of July, 2016

I appreciate that this process may be an added stress factor in an already emotive environment, but we need to ensure that we can assure a safe environment, in addition to safeguarding not only our babies but our staff.

This is not meant to be a blame or a competency issue – but a way forward to ensure that our practice is safe. It will probably be developed into a competence based programme to be undertaken every 2-3years in line with our mandatory update training.

Kindest regards

Eirian
