Subject: RE: Telephone call

Sensitivity: Company Confidential

Hi Tony,

Thanks for your email and apologies for not providing you with an update sooner. As previously mentioned, we undertook a thorough internal review – nothing significant was identified within this, however, following discussions with our Board and on receiving views from our clinicians, the step was taken to place LL on non-clinical duties (working in a corporate team), she agreed to this (although understandably she was very distressed), this has been done as sensitively as possible providing support for LL throughout.

There has been no indication to discuss this matter with the Police at this time, but our Medical Director has commissioned an external review (which commences tomorrow, 1st Sept), we are hoping that this review will provide some recommendations to support further action if required. As such LL will remain undertaking her non clinical duties until we are in receipt of the final report (in a couple of weeks' time).

Once we have the report, it would be good to discuss this with you, I see we have a face to face meeting in the diary for the 27th Sept with Sue and I so the timings may work out well

Regards, Alison

Hi Alison,
Further to our discussion a few weeks ago is there any update to report regarding this matter?
Thanks
