

WED 23 June 2016

8.15. Hurven - neo-natal issue  
 Emails from consultants - escalating concerns.  
 Email this am from further consultant.  
 Advice: 'Police' need to be involved now.

Timeframe to date.

Outlier on mortality - identified by us  
 Then thematic review - external → 2014/15  
 arising from review - NNU consultant from C'Pool.

He reviewed all neo-natal deaths 12/18 months.

Review of unit by Brierey following Kirkham.

Review found no findings - no alarm bells

earlier this year - common factor 'this nurse'

Benchmarking (data) - partly own benchmarking

nurse not with us for whole of this time

clinical forensic review of every neo-natal death.

Death of triplets has raised concern

Nurse was on duty at deaths

Sufficient level of concern

that illegal activity in neo-natal
