

Wed. 27. June. 2016. TC. Ak. H. Dave. S. Steve. B.  
 5.10pm. Te-office. Rami. Bladi. LB. SRe  
 Ak outline.

Mark is *Sedparick anvre* (Lami)

Steve. B. Some Pms reports but not all. Inconclusive.  
 Know not satisfactory giving answers  
 Inconsistent DATIX reports.

'Near misses' not a term used by Steve B.

Difficult in Neo-notes.

Unexplained collapses - perhaps shd DATIX

Lot of complexity around reporting - tricky to get oversight.

Ruth sd - look at data in a grid fashion to look  
 at all, not just clinical. No kit/beds issues.

Microbiology? nature of neo-natal.

Steve. B. Defined one panic incident/birth

Pseudo-moss growing from legs but not  
 incident in incidents.

looked at clinical factors & more (environmental)  
 Inconclusive.

Emails → staffing

Steve B. Met July 2015. 3 cases common theme  
 was nurse. Discussed at thematic with  
 Liverpool & May 2016.

Rami. entirely subjective.

Staff member - almost always Nurse in charge  
 Babies were stable & then deteriorated.

Why always this nurse?

Babies were unwell but getting better

Babies not getting oxygen - then crash.

Babies did not respond as they should

Steve. B. Disturbing thing - twin survived  
 & got better in Amowwe Park.

Rami's coming back to COCH. Baby's deteriorate

Nurse 7 out of 9 bet 12noon & 4pm.  
 - vein change none

Step 2 More than just an association with this nurse  
Lavi How? Popular. air embolism? Crystal ball  
Unquestionably got smelt in going on or what  
But what?

Looked at equipment! Looked clinical matters  
Labi. Pre-term babies 2 steps forward & 1 step back  
Don't suddenly deteriorate.

These babies are relatively stable.  
Sudden deterioration & collapse  
Twins. Previously 1 matter & then balls together.  
realise more going on.

Steve B. 3 sets of twins 1 triplet. good  
SR. outline.

TC. Why did we call the Police?  
if twins & triplets why did the Trust take them on?  
Can we explore more w. Police?

Steve B. Can we move member of staff? <sup>no</sup> should then be Police  
Lavi. Why not earlier? Reviews.

TC. New info babies transferred back & then deteriorated  
LB. Unsafe unit. agreed.

TC. Suspicious - why? if potentially criminal  
Lavi. Police - what if. no conclusion.

LB. Activity has changed - increase

HT Nursing review? Rev. Comprehensive review?  
Draft proposal. College. Multi-faceted  
Nursing & Doctors.

TC. Issues cannot explain.  
Is this suspicious criminal or are we missing <sup>some</sup> thing  
causal link bet. nurse.

Dr. Harness. no longer working here  
Outcome. End of maternity job sketch.  
based on investigation that is  
inconclusive.

Concern - shut unit.

Commission review.

Then Police.

or.

Police & consequences.

Balance needed.

Support local hosp's.

Consultants to agree way forward.

Safety paramount.

Unit closed tonight.

Nurse cannot be excluded.

Definition of restricted unit.

-- high risk pregnancies

-- obstetric pathway

Go to Level 1. 35 beds & no intensive care.

1st. Early review.

Support for admin. to achieve.

Miles Eason

Risk accepted

All agreed Must nots deplete our future.

Try to clinicians.
