**Subject:** THEMATIC REVIEW

Hi Alison,

I was hoping that we could arrange a meeting with you to discuss how to move forward with regards to our findings.

1. High mortality – 8 as opposed to our normal 2 to 3 per year
2. A commonality was that a particular nurse was on duty either leading up to or during.(this particular nurse commenced working on the unit in January 2012 without incident).
3. A doctor was also identified as a common theme however not as many as the nurse

Despite reviewing these cases there was nothing obvious that we were able to identify – therefore your input would be valued.

I have been informed that Ian Harvey is aware that we have had an external thematic review.

Kindest regards

Eirian
