32 wks & above is normal Level 1. --cd be 34 wks (over 32 wks) 30 babies a yr would have to be 'shipped out'  
Consensus - Steve B. no strong feeling  
Gestations - level 1. above 32.

→ Julie Maddocks.  
Lorraine has had conversation with network - comfortable.  
Work - to Wed. this wk.

Jo D. no's difficult to judge but likely 2 deliveries per wk.  
Julie Maddocks will talk to transport team - no probs anticipated.  
Wkly conversations to ensure okay.  
LB to spk to Wales.

do. Each mother is an individual & when shd delivery be done.  
↳ this is a concern.

TC Principle → comms. to mums. Must be explicit - not risk averse but need to be clear.

Julie F. Each woman needs individually to be assessed

Steve B. Cannot reduce risk 100%

TC. Incredible upheaval for 2 deliveries. No's. low.

Need to plan to find unit appropriately.

Duncan Do we copy Macclesfield - here 1 known risks.

TC. Stabilisation - warehouses - ?

Lorraine. In-quick delivery, & then to other unit?
