**Subject:** Triplets

Hi Huw,

We reviewed the triplets' care yesterday and I think at least [Child O] and probably [Child P] will go to an inquest. You may be asked to produce a statement for the inquest and its probably best to get it ready now rather than wait 6 months when they ask you and its not fresh in your memory.

I can help with format etc if you need help.

[Doctor V] and [Doctor U] are doing the same and have the notes at the moment. I can let you know when they are finished with them.

If we can touch base together sometime in the next week too that would be great.

Thanks for all your hard work recently.

Steve
