Hi Margaret

Further to previous correspondence Tony, Stephen and I met with the ACC, Det Supt and DCS Wenham (who is on the CDOP). In short:

COCH/117/200/000002

There will be an investigation but it will be described as an invited police investigation to investigate unexplained deaths, not a criminal process.

They are drawing up TORs to share with us and agree next week.

We are forwarding details of the 13 babies and parents and the nurse.

They will be advising the Coroner(s) and then jointly with us discussing with all the parents before it gets out by other routes i.e. the Coroner adjourning a forthcoming inquest.

They will then liaise re the investigation and analysis- they already have an SIO, analyst and Liaison Officer identified.

They have advised us to discuss the nurse with the LADO [Irrelevant & Sensitive]

They have you as the point of contact for NHSE.

Think that's the major points- I will keep you updated.

Let me know if there are any queries.

Regards

Ian

Hi Margaret

We have a meeting scheduled for 15th May, 10.30-12.30 to meet together with some of our neonatologists for the scoping meeting. However, I have had a conversation with Nigel Wenham, the DCS on CDOP, and he, the ACC and the DCI who would be Senior Investigating Officer want to meet with Tony, Stephen Cross and I before this. We are going to Winsford on Friday afternoon. I shall email you on Friday after this first meeting.

Regards

Ian

Hi Ian

Have you had any updates from the police

I know you were hoping they would come back to you last week

Many thanks Margaret – I think that is a reasonable summation.

Re the Comms lead – NHSE Spec Com have recently pinched our comms lead, she will be starting shortly, she wouldn't need briefing!

Dear Ian

I have taken a few notes from yesterday's teleconference which I hope you find useful.

It is to ensure I have interpreted the conversation correctly but more importantly details our action. Let me know if you are ok with these and can you pass to your colleague Stephen.

Kind Regards
