Subject: Re: Letter from Tony Chambers
Sensitivity: Confidential

Ian Harvey told me that your letter of 10/2 has been shared verbatim with the coroner and the authors of the two reports. He said it was clearly their duty to do so. Therefore you can be assured that the coroner knows that you still have concerns and that you think further forensic investigation is required.

I am possibly just too jaded and distrustful now, but I worry what the coroner has been told. If he has been given our letter from 10/2 then this quite clearly points out our concerns and we have to wait for his response.

I am happy with the basic gist of the two letters and will have a think about specific wording over the weekend.

Thank you for your help and support Sean.

I hope those of you who are off this coming week, have a well deserved and restful break (stop checking your emails!) and Murthy, John and I eagerly await your return.

Doctor ZA
