

Good morning Sue

We are happy with the proposal and want to proceed, thanks. I have attached an amended TOR for your review, happy to discuss a final version.

For your info, we are today, after lengthy network and regulator consultations downgrading our unit today, effectively closing the ITU cots pending further data collection and the review. It may be that this will feature in the press, at least locally.

Kind regards

Ian

Ian Harvey

Dear Ian

Here we are – sorry for the delay but I was awaiting signoff!
I've secured the nursing rep from RCN and awaiting responses from the other ideal clinicians.
Will keep onto it but in the meantime I hope this is helpful.
I'm working at home tomorrow but available on the mobile at any time if there are any immediate queries
With best wishes

Sue

No problem Ian

The 'proposal' should be with you this afternoon – I am just pulling together the review team as I was hoping to have them lined up but some are away – looking to visit for 2 days during August – we can give immediate feedback if we see anything of urgent concern but fully QA's draft reports usually completed within 4 week s of the visit.

More soon

Sue

Dear Sue

Further to our conversation, and apologies if I seem to be pestering, but would you be able to give me a likely timescale for a review? As you are aware, I am keen that it is ASAP but our Chairman is asking for further detail.

Many thanks

Kind regards

Ian

Dear Mr Harvey

So sorry you weren't able to find our service www.rcpch.ac.uk/invitedreviews - we are updating our website and the page pops up best if you google it, ironically.

I have just tried to call you but you're in a meeting I think .

Happy to have a conversation in confidence whenever is convenient for you– my details are below,

Sue

Good morning

A number of Colleges offer an independent review service for individuals practice or for departments where there are concerns. I can find no reference to such a service on your website, do you provide this service please?

Thanks

Kind regards
