

Detail

Hi,
The messages received from our respective units within the ODN have been very supportive – here is an example
Keep on smiling J it will be worthwhile in the end.

Subject: FW: Unit status

Supportive message from Bill, the clinical lead from LWH, which echoes sentiments I have received from other hospitals too.
Eirian, please would you forward this to all the neonatal nurses and let them know how well they are thought of in the region.

Subject: Unit status

Hi Steve,

I am aware of the problems you guys are facing at COC and saw the announcement about cots etc. I also spoke to Doctor ZA earlier about a baby being transferred back from AHCH.

Just thought I would send a message of support. It all sounds a bit stressful. If there is any help we can give, you know we will. We have a very high regard for the Countess here and hope all of this is sorted out soon so that 'normal service can be resumed'.

Cheers

Bill
