

Interviewee Name & Role: 3x Midwives Jim + Sarah

Key Areas to probe / take forward:

Detailed 2<sup>nd</sup> report

All cases had been OSR of

\* went through all the cases together looking @ them. Invited HOM

for Liverpool to check it – external pair of eyes.

15 cases been through

S/D – NN to Jan 15 – November 2015 => to all. Then the

\* Paeds Sarah to send COCH always had very low

Network for peer review stillbirth + NN mortality rates

~~Used to send everyone in the~~ ^ 10% lower than rest

Ann Marie – here before [part?] of paed from governance team

Midwives – never had a problem seeing the paediatricians on the labour +

Postnatal ward. Good working relationship. Midwives do the

NIPE ^ 3000 per year.

Best bit of the job is seeing a baby delivered

Has [d....] had an impact on booking – no. But have a

Clear path for going out – where there is a cot available

- call the cot bureau.

Jim – before decision made – issues of the unit ?staffing?

Availability of cots was poor [upward arrow to indicate increase] number of cots transfers out

[Page break]

[Page 30]

as fewer cots available. Last 6-12 months a [agast?]

that no cots then – [?] send another out!

Drop down not much a big issue as already down.

Midwives have logged numbers transferred out. Very few –

thought there would be more. Do it all the time got

a proforma midwives do it all. Then get back no

delay came back again 4 days later. Have had
