

# I&S

PD

Meeting with SB/14/SN 24/11/16. 9.30a

Chance to review, subsequent plan, put together once final version had.

Draft kept under your hat.

14 had a report comments re review getting off alarm bells.

Telling other stuff seen review expressing surprise you haven't.

Stirs up interest.

SB - wasn't entirely explicit in what 14 said 2 who ago. Haven't spoke about any sensitive details. Discussed with Ruth re draft. Discussed with RJ. Mentioned to some nursing staff 9th consultant before 14 2.

14 - said no issue with med consultant cos of review getting 9th consultant.

Exclude heavy all sorts of things.

Be very careful this stage what you say. In report, cancers nurses & medical staff. Problem is there getting head of steam.

SB - if crossed line, not my intent. But not explicit in what discussed 2 who ago.

14 - Not keep completely quiet. But this was a draft. I'm sure I made clear to contact him for his view it when final version is. Not received. But need to be very careful, a lot of sensitivities. What say & how say it
