

THURS. 27. APRIL 2017.

12.30pm. TC's office.

IH: Rosie Holt. Rani.

Hayley. Fran. Rajiv. Nigel W.
SPE

Outline - IH.

Hayley. Does 2nd report make any recommendation.

IH. broader forensic review - done. "Whatever you want it to be!"

Now COOP conversation.

Believe that we explored everything.

Rani. done - looked

In her view it warranted broader forensic review. But we think further it.

What is 'broader forensic review'.

We remain uncertainly

Fragile & poorly babies & collapse.

Group of children died.

Room & unwell collapsed. Did not respond.

Also group who did respond.

Shrugging on direct cause on all of these factors in report - general

Avec. of 1 member of staff - CONCERN

Beverly Allott.

Uncomfortable that not enough done

on that 1 person or any other

suggested a police level review

IH. Nurse. full time. Over time.

Allocated sick & poorly babies

Rosie. Miggling us & came together as MADS.

Has it bothered other staff - not for us

to investigate. Ed more evidence be found

by scrutinise other staff.

We hav. not shared our concerns with others

directly. Tension bet Docs & Nurses.

V. difficult. Level change. Have conversations.

Staff know of review.

Rev. Pathic Nurse - days & nights & moved off night & then no incidents on nights. Since level change - no real incidents.

under current level wd hv. been the same.

IH. Nursing is higher level than we shd hv.

Increase in babies under 200gms.

V. hot unit, staff working under pressure.

Context of work in unit.

NW. Don't take below 32 wks & don't keep intensive care level babies. Since December 1st yr. Workload change on level change.

IH. About safety

Rev. Summary. Investigations so far. not 100% least & never will but sufficient investigation.

or shd there be further investigation? feeling from clinicians - bit of discomfort not investigated deeply enough.

We are not trained to know the answer to this.

Shd all staff be inv'd? Pathology?

Hv. we lost sight of reality

Centring of Paed. experience & all uncomfortable

IH. Coroner - frank conversation.

& family - keen for end point.

full & frank conversation.

hosp. shit to be held

basic.

NW. PMA's? AU

basic. No - why cohort. Bobby well.

Died quite suddenly. Coroner decided give problem. - no PMA. Isolated - ok.

BUT. PMA. incredible

Deaths with difference bet PMA's & transition.

114. To protect Nurse.
Hayley. What Nurse doing now
basic. Does hv. attendance on unit.

114. Evidance. the process.
Recomm. of medication.
