**Subject:** RE: IMPORTANT: **Child A** (deceased)

Dear Sarah

Unfortunately I did not see your email prior to the neonatal thematic review yesterday. I have discussed this with Ruth this morning and she has advised that a decision regarding the next steps will be taken once we receive the thematic review report from Dr Brearey.

Kind Regards

Deb

Debbie Peacock

**Subject:** IMPORTANT: **Child A** (deceased)

Dear Debbie

**Child A** (deceased)

**DOD: 8 June 2015**

**Datix Incident:** PD

Following on from our recent conversations in relation to the above the Coroner has requested the we consider completing a SUI Report due to the complications in long line and catheter insertion.

I am aware that the notes are now with yourself and Dr Brearey for the purpose of a neonatal review and wonder if you could discuss this case with Ruth prior to the review taking place so that we can agree on the format of the review. As the Coroner has asked us to consider undertaking a SUI investigation would it be beneficial to undertake the review in this format?

It is important to note that the family has raised some questions that they would like answering which are attached and we will be approaching Dr Saladi, Dr Jayaram and possibly Dr Davies to answer these questions.

To date we have received Inquest reports from Dr Jayaram, Dr Saladi and Dr Davies. The Coroner has also requested that we obtain reports from all paediatric Drs involved in the patients care. We are in the process of clarifying who will need to write the reports with Dr Jayaram today and will let you know as soon as we receive his response.

**Subject:** FW: Inquest Preparation/Potential Claim

Dear Ruth

**Child A - Submission deadline to HM Coroner 3 May 2016**

We have today submitted the majority of the witness reports required by the Coroner for this Inquest and we now need to disclose the relevant investigation reports and action plan.

Can you have a review of this matter as soon as possible, last time we talked this one through you were going to have a look at the OSR report and NNU review and chase up the action plan and consider Duty of Candour.

We do have a potential claim for which we need to provide full disclosure on too.

**Investigation/Examination Reports obtained:**

- Datix ID: PD
- OSR Secondary Review Report 16 June 2015
- Post Mortem Report
- NNU Mortality Thematic Review

**Witness reports obtained from:**

- Dr Jayaram – responses to family questions
- Dr Saladi
- Dr Davies
- Dr Ogden - awaiting
- Dr McCarrick -awaiting
- Dr Harkness - awaiting
- Dr Wood
- Dr Lambie
- Dr Beech
- Dr Brunton
- Dr Hor

Thanks for your help Ruth.

Bw

Sarah
