**Subject:** CQC Interview

Dear Dr Breary

I have just spoken to Gill Mort who explained that you would like to attend the CQC interview to represent Neonatal care.

While I understand that you would be able to answer any specific Neonatal questions, I think that this interview is aimed at being an overview of the Children's services and that any specific questions will be dealt with during the rest of the inspectors visit.

I am conscious that there are quite a few individuals already attending that interview so perhaps the best thing would be if you arrive at the interview and ask the inspector if they would like you to join them

Hope that sounds OK to you

Kind regards

**Sally**
