

air conditioning in theatre is turned off prior to the delivery of the baby and the baby is wrapped in a large gauze swab or a towel for warmth during this time.

Kind Regards

*Debbie*

Hi,

Just for clarification from yesterday's meeting:

1. With regards to [redacted] **Child A** intubation – I have confirmed with Mel and a capnograph was used.
2. I have also confirmed with Dr.Gibbs and it was he who intubated as Dr. Davies had tried x2 and had been unable to.
3. I have yet to see Chris to ask him about the delayed cord clamping and how they kept the baby warm.
4. I will arrange a debrief with the appropriate staff for [redacted] **Child A** today for probably next week now.
5. We have just had the debrief with regards to [redacted] **Child C** this morning
6. [redacted] **Child D** debrief will be held on Monday the 6<sup>th</sup> of July at 11.00 on the NNU

Regards

Eirian

Hi Debbie,

Thanks for your help today. I have attached my summary and data for tomorrow's meeting.

Feel free to put it in any other format you feel is appropriate.

Steve
