

Are there micro-biology issues? Review! Look back.
 Significant evidence of sepsis but not infection control!
 TC. Clearly something not right. But
 culture maybe future of maternity in Q,
 looking too much on in unit, some kind
 of Dept's way of dealing :-
 poor incident reporting
 closed culture.
 potential harm
 Assurance is police. But what other options :-

Managing comm with consultants. & need to meet.

LB. High risk pregnancies in future - effect.

Do we inform Police? ?
 Do we shut unit? ?
 Do we exclude nurse? ?
 Complicity bet obstet & MNU?
 Response re new models of care - not interested?

SUMMARY

- o Increase in mortalities.
- o Arguably don't know why -> Unexpected but are they?
- o All clinical issues examined. ^{NO OBVIOUS CAUSATION} Suspicious?
- o Q of Nurse involvement - only evidence 'on shift'.
- o Review or Police? DAVID S. RANI STEVE B. MURPHY
- o Police. Unit closed.
- o Forensic examination.
- o 1/2 of all shift.
- o Ample of Nurse.

ALL SHIFT
 YES
 TO POLICE

o REPUTATIONAL ISSUES FOR TRUST - LINK TO CQC REPORT.

Wed. 27. June 2016. TC. Ak. 11. Dave S. Steve B.
 5.10pm. TC-office. Rani Saladi. LB. SPe
 Ak outline.

Marki Sedgwick aware (Rani)

Steve B. Some Pns reports but not all. Inconclusive.

Some not satisfactory giving answers

Inconsistent DATIX reports

'Dear misses' not a term used by Steve B

Difficult in Neo-notes.

Unexplained collapses - perhaps shd DATIX

Lot of complexity around reporting - tricky to get oversight.

Ruth sd. - look at data in a grid fashion to look

at all, not just clinical. No kit/beds issues

Microbiology? nature of neo-nates.

Steve B. Outlined one path in adult/birth

Pseudo-moni growing from legs but not

incident in incident.

looked at clinical before & more (environmental)

Inconclusive.

Emails -> shifting

Steve B. Met July 2015. 3 cases common theme

was nurse. Discussed at thematic with

Liverpool & May 2016.

Rani. entirely subjective

Shift member - almost always Nurse in charge

Babies were stable & then deteriorated.

Why always this nurse?

Babies were unwell but getting better

Babies. not getting oxygen - then crash.

Babies did not respond as they should.

Steve B. Disturbing thing. - twin survived

& got better in Amore Park.

Babies coming back to CCH. Babies deteriorate

Nurse 7 out of 9 bet 12noon & 4pm

& since change none
